

REINSTATEMENT REPORT

- Plans searched - RP863740
- Unless stated otherwise, all marks used for reinstatement were considered to be in original position
- Marks defining or referenced to Stns 1 & 4 were found to be in good agreement with the dimensions of the respective relevant plans and were fixed in accord with said plans.
- Connection was made between Stns 1 & 4 and found to be short by 20 mm to that as measured by RP863740 (Meas: 431.333, Orig: 431.353). With no evidence offering an alternative, the original angular relativity of RP863740 was maintained at the existing bend between Stns 1-4 and the shortage proportioned to fix Stn 3.
