Hand Galah

Try making a galah with this template and you can add his crest by painting or tracing and colouring your hand and cutting it out. If you cannot print out the template you can get your caregiver to have a go at drawing the body so you can add your art to it.

What you need:

- Template of galah body or drawn galah body
- Some paint or crayons
- glue
- Feathers if you have them
- Scissors (requires adult supervision)

How to:

1. Cut out and decorate your galah body. You can do this with crayons, paint or glue and feathers.
2. Find a piece of paper and do a painted handprint or trace your hand onto the paper and then cut it out.
3. Decorate you crest (your hand) with crayons paint or other.
4. Glue or attach your crest to the galah body.

Children may want to keep tracing their hands or doing hand prints as this is a wonderful sensory activity for little ones. Have fun!
