

0-5 Activity Sheet

Shapes House

Shapes are fun to put together. You can make a picture of anything you like.

What you need:

- Coloured paper
- Pencils
- Scissors
- Glue

How to:

It's very simple - cut out the shapes provided or if you like, cut out your own shapes. Glue them onto the paper and make a house. Decorate it so it looks like the house you live in or make it look like a house you have seen in your neighbourhood.

Happy cutting and glueing.
