

# 0-5 Activity Sheet

## Pebble Art Caterpillar

### What you need:

- Small Rocks
- Craft paint
- Paint brushes
- Strong glue
- Twigs or pipe cleaners for the antennae
- Sharpie to draw on face

### How to:

1. Wash the rocks you have found and let them dry.
2. Now is the fun part. Use your imagination and paint your rocks whatever colours you like. Let them dry. You can now turn your rocks over and paint the underneath. Let them dry.
3. Add some decorations on your painted rocks, you can paint or draw on dots, swirls, stripes.
4. Paint or draw on a face and glue on antennae.
5. Now you can find a place in your garden to place your caterpillar, you can just put the rocks side by side or place some of the rocks on top of the others and glue them together.
6. Another good idea is if you want to move your caterpillar around you could glue it onto a piece of timber or board for ease of moving

So now start painting, you could even use your fingers to put patterns on the rocks.  
Great, nice and messy
