INFORMATION REGARDING RURAL ADDRESSING

ISSUING OF RURAL ROAD NUMBER POSTS

Rural road number posts are available for any rural property within Scenic Rim Regional Council. A rural road number is a measurement from the starting point of the road through to the access point of each property. This measurement enables emergency services to locate properties quickly. For example, if the measurement from the start of the road to an access is 1533m, then the rural road number would be 153 (depending on which side of the road it is located).

Should the rural road number post be stolen, misplaced or damaged, Council will supply a new number and post for a small fee. The replacement number is to be installed by the owner.

PLACEMENT OF RURAL ROAD NUMBER POSTS

The initial rural road number post will be installed by Council, since the rural road numbering system is a measured number to the access point of the property.

DESCRIPTION OF RURAL ROAD NUMBERING POSTS

Council's rural road numbers consist of a black plastic triangular head with a yellow reflective sticker at the top which is installed on top of a star picket at the entrance to the property. The plastic head will have the rural road number displayed on it using reflective stickers. This number will be visible from both directions of traffic.

To enquire if the property has been allocated a rural road number, or to verify the existing rural road number, please phone (07) 5540 5111.
