REIMAGINE WASTE

POSTER COMPETITION

ENTER
NOW!

WASTE IS A PROBLEM AND AN OPPORTUNITY, WE WANT YOU TO BE PART OF THE SOLUTION!

Every year in the Scenic Rim we send roughly **20,000 tonnes of waste to landfill** to be buried forever.

How much waste is that? It equates to every family filling up the inside of their house with waste, every year. Sending that to landfill takes up valuable land and creates greenhouse gases.

Council wants your ideas on a poster to show the community ways to rescue waste going to landfill.

WE'RE LOOKING FOR IDEAS THAT ARE...

Creative... New ideas for rescuing waste from landfill or old ideas reimaged.

Easy to follow... The easier it is, the more people will do it.

Draw a crowd... Could this idea go viral? Will it excite the whole community, grownups too?

Make a difference... Can you guesstimate how much waste will be rescued from landfill?

HOW TO ENTER

Let your imagination run wild and then simply upload your poster online by **Friday 5 November**.

www.scenicrim.qld.gov.au/waste-services

This competition is part of the Council's waste education program.

It's open to children of all ages from the Scenic Rim to create a poster showing how you have (or would like to) reuse, recycle, or repurpose waste from your home or school.

This is an individual competition, so be sure to encourage your classmates and friends to enter too.

You can include photos, drawings, or plans to help explain your actions or ideas.

You can even bring your poster to life with a video of how your idea works.

Your ideas will be shared with the community and winners announced during National Recycling Week (8-14 November).
