

### **Biodiversity Officer Climate Change and Land Sustainability Customer and Regional Prosperity Full Time Permanent**

*The Scenic Rim is a region of opportunity surrounded by World Heritage-listed national parks and well renowned for its breathtaking scenery, agricultural and tourism industries.*

*At Scenic Rim Regional Council, we deliver community services and infrastructure to the region's population of more than 40,000. With a diverse team exceeding 420 employees, we are committed to shaping a progressive future for our community through collaboration, integration and innovation. We are proudly an equal opportunity employer that embraces diversity and a workplace underpinned by shared ethos and values that shape our actions and behaviours.*

#### **About this opportunity**

Our Biodiversity and Climate Change team has an opportunity for an experienced Officer to contribute to the development and delivery of Council's sustainability and climate change initiatives, projects, programs and associated activities as part of Council's vision for a healthy environment under operational and corporate plans.

Key responsibilities include:

- Providing specialist advice in the delivery of sustainability initiatives, carbon accounting, energy efficiency, greenhouse gas emission reduction to a variety of internal stakeholders.
- Providing strategic and specialist advice into the development, monitoring, implementation and review of Council's sustainability and environmental management strategies, plans, programs, guidelines and actions.
- Delivery of external support to community groups, residents and businesses to reduce environmental impacts, consumption of resources, improve climate response and become more sustainable.
- Project management of a variety of projects including sustainability, natural resource management, revegetation and best management practice projects and programs.

#### **About you**

To succeed in this role, you will require ;

- Tertiary qualifications in Sustainability/Environmental Management related to the position.
- Minimum two years' experience in natural resource / environmental management.
- Knowledge of environmental legislation and how it relates to natural resources, sustainability and climate response within the Region.
- An understanding of contemporary natural resource management and sustainability, threats and trends.

#### **About our offer**
