Which bin does this go in?

Using your kerbside collection bins correctly means that your rubbish is disposed of safely, easily, and with limited impact on the environment.

Your general waste bin is for household waste that can't be reduced, recycled or recovered other ways.

There are a growing range of product specific recycling and recovery programs available through Council and other facilities for more information visit our website.

General Waste

Don't put soft, scrunch-able plastics in this bin. They can be recycled through Redcycle at major supermarkets.

Still not sure if you can recycle it in the bin? Check the label - many products now include the Australasian Recycling Label with clear recycling information.

Recycling

YES	NO
Bagged mixed rubbish	Batteries or battery containing devices
Broken crockery and glassware	Appliances or electronics
Nappies	Chemicals, motor oils or other liquids
Rags and textiles	Hot ashes or embers
