

The Shelf Road, Tamborine Mountain

June 2025 Update

Landslip Remediation and Road Realignment

As part of Council's ongoing commitment to delivering an accessible and serviced region, Council is undertaking remediation works following disaster events on The Shelf Road, Tamborine Mountain. This project is jointly funded by the Australian and Queensland governments under the Disaster Recovery Funding Arrangements.

The works will involve construction of The Shelf Road to a new alignment adjacent to the existing damaged section of road. These remediation works will return damaged assets to their pre-disaster condition, in accordance with relevant standards and guidelines.

Measures have been implemented to mitigate any environmental impacts, and include protecting vulnerable plants and wildlife, as well as ensuring the area is restored and revegetated as closely as possible to its original condition following construction.

When will it happen?

Early preparation works have been completed including the installation of nest boxes, the relocation of protected trees, tree clearing, the relocation of Energex-owned electrical services as well as Telstra and NBN services.

Main construction activities are expected to commence in June 2025 and take approximately 10 months to complete, weather and construction conditions permitting.

Works will include construction of:

- a new road embankment using imported materials.
- extensive drainage systems.
- gravel pavements and bitumen surfacing.
- guardrail, signage and line marking.
- landscaping works including planting and revegetation.

Works will generally occur between 6.00am to 6.00pm Monday to Friday and may include Saturday works when particular activities are required.

Where will it happen?

Works will occur on The Shelf Road at Tamborine Mountain, approximately 250 metres from Bartle Road.

What can I expect?

The Shelf Road access will remain open under temporary traffic management during these restoration works. Access will be maintained to all properties. Construction plant will be active in the area during project construction, and there will be noise and vibration at the site.

Your patience and understanding is greatly appreciated as Council facilitates these improvements to the road network.

Questions?

Any enquiries regarding these works should be directed to Council on 07 5540 5111 or mail@scenicrim.qld.gov.au.
