

TAMBORINE MOUNTAIN GALLERY WALK PRECINCT

Project Update May 2025

Completed 2022: Artist's impression of Tamboorine Mountain Gallery Walk Precinct

In response to recent community feedback, Scenic Rim Regional Council will be providing monthly progress updates to keep you informed about the Gallery Walk Car Park Construction and Amenities Upgrades.

This initiative aims to alleviate traffic congestion and enhance pedestrian safety, providing off-street parking and improved accessibility within the Tamboorine Mountain Gallery Walk Precinct. This project is jointly funded by the Queensland Government's South East Queensland Community Stimulus Program and Scenic Rim Regional Council.

Council is committed to delivering an improved and safer environment for our community, with construction scheduled in two stages. Stage One will focus on the construction of the off-street parking to the east of Long Road and pedestrian safety. Once funded, Stage Two will involve additional off-street parking construction, along with improvement works on Long Road.

STAGE ONE HIGHLIGHTS

Construction of an off-street car park featuring:

- 94 standard car parks
- Five accessible parking bays, and
- Three coach parking bays
- Minor upgrades to public toilet facilities
- Increased seating areas for public use
- Enhanced landscaping and signage to reflect the unique identity of the precinct as shown in Image 1 for the Car park and landscape plan for Gallery Walk, Tamboorine Mountain, and
- Installation of raised pedestrian crossing, improved lighting, and shared pathways to enhance road safety and visibility.

SAFETY AND LIGHTING IMPROVEMENTS

To ensure the safety of car park users and nearby properties, a 1.2-metre chain mesh fence will be installed along the eastern and northern boundaries following completion of Stage One.

Additionally, to minimise noise impacts, an acoustic fence will be constructed along the southern boundary of the residential blocks. This 1.8-metre timber fence will effectively absorb and disrupt sound waves, providing a peaceful environment for residents while contributing to the overall improvement of the area.

The installation of six-metre lighting throughout the area is a crucial aspect of the construction works. This upgrade will not only illuminate pathways but also promote a welcoming atmosphere for all community members.

View the car park and landscape plan for Gallery Walk, Tamborine Mountain (refer to Image 1).

We appreciate your patience during these construction works and look forward to unveiling a brighter and more accessible space for everyone to enjoy. Stay tuned for further updates as we continue to progress these improvement works.

PROJECT TIMELINE

- ✓ 2021 Funding sought to deliver concept designs
- ✓ 2022 Draft concept designs were provided to community for feedback

- ✓ 2023 Community response informed the final concept design
- ✓ 2024 Council sought external funding
- ✓ 2025 Council committed \$2.1m to match the Queensland Government's \$2.1 million grant under the 2024-2027 South East Queensland Community Stimulus Program.
- ✓ 2025 Stage One construction commenced
- 2026 Stage One construction completed (February 2026 weather and construction conditions permitting)
- 2028 Council to submit funding application for Stage Two design

Stay tuned for further project updates
